## CLASS - V AIMS AND OBJECTIVES

### ENGLISH

- To enable the students to develop the power of imagination, thinking and expression.
- To enable the students to acquire Knowledge of grammar concepts.
- To enable the students to express the ideas of the text orally or in writing.
- To create love and interest for English Literature and build reading skills.
- To enable the students to understand the thought and imagination, which is contained in the lessons.

### हिन्दी

- किसी भी भाषा को शुद्ध रूप में सिखाने के लिए भाषा के व्याकरण की जानकारी देना हमारा मुख्य उद्देश्य होना चाहिए।
- बच्चों को शुद्ध रूप में छोटे-छोटे वाक्य बनाने की कला सिखाना।
- सही स्थान पर वाक्य में मुहावरो और लोकोत्तियाँ का प्रयोग करना सिखाना।
- प्रदत्त विषयों पर रचनात्मक कार्य करना सिखाना।
- शुद्ध वर्तनी को सिखाना-श्रुतलेख एवं सुलेख माध्यम से।

### MATHEMATICS

- To enable the learner to acquire and develop mathematical skills and attitude to meet the demands of (i) daily life (ii) future mathematical work and (iii) work in the related fields of knowledge.
- To provide the basis of mathematical skills and processes which will be needed for vocational purposes.
- To enable the students to have clear comprehension of the way the number is applied to all measures but most particularly to those frequently used concepts such as length, volume, area, weight, speed etc.
- To discuss the relationship between Mathematics and other subjects.
- To prepare the students for further learning in mathematics and the related fields.

**SCIENCE**

- To develop in the students the habit of observation, exploration, classification, and systematic way of thinking.
- To develop skills of scientific enquiry and understand the laws of nature.
- To encourage the students to think and connect science with daily activities and real-life situations.
- To solve problems using the scientific methods.
- To encourage the students to learn while doing activities.

**SOCIAL STUDIES**

- To awaken in the students a desirable understanding of the various streams which have contributed to the development and growth of the Indian nation and its civilization and culture.
- To help the students to develop a world historical perspective of the contributions made by various cultures to the heritage of mankind.
- To help the students to develop the ideals of world citizenship, universal brotherhood, co-operation among human beings and sympathetic attitude towards others.
- To help them in adjustment of human life in accordance with geographical circumstances.

**COMPUTER**

- To acquire knowledge on theoretical concepts, applications and programming aspects of computer science.
- To develop logical and analytical thinking.
- To develop the detailed insight of applications of computer.
- To create in students a strong foundation in problem-solving and logical thinking to prepare new age learners for a tech-ruled future.
- To develop the ability to solve problems using both structured and modular approach.

**VALUE EDUCATION**

- To enable the students to develop good habits and character right from the very young age.
- To enable the students to take up responsibilities.
- To enable the students to know and practice certain values like caring, sharing, generosity, friendliness, thankfulness, cooperation etc. during their growing years.
- To promote the development of good character for the purpose of raising the standard of good citizenship and helping students live responsibly.
- To enable the students to have love and respect for each other in order to receive the same.
